

## Six-month Index

### VOLUME 47 July-December 1995

DATE	ISSUE
JULY	1
AUGUST	2
SEPTEMBER	3
OCTOBER	4
NOVEMBER	5
DECEMBER	6

### AUTHORS

#### Anderson BB

Zuska's disease: Obstructed mammary duct related periareolar breast abscess. 47(6):324

#### Athanasiasidis I

Development of malignant melanoma in a burn scar: Strategies for treatment. 47(2):94

#### Barie PS

Symposium: Antibiotic update: The changing pathogenesis of surgical infections. 47(4):225

#### Barsoum GH

Current surgical therapy for inflammatory bowel disease - Part 1. 47(3):129

Current surgical therapy for inflammatory bowel disease - Part 2. 47(4):195

#### Belkin M

Spontaneous splenic rupture complicating heparin therapy. 47(2):69

#### Brunt LM

Laparoscopic splenectomy for splenic artery aneurysm. 47(5):257

#### Cagir B

Nontraumatic rhabdomyolysis and acute renal failure following prolonged lithotomy position. 47(5):264

#### Cendan JC

Nutrition for the cancer patient. 47(1):17

#### Church J

Symposium: Familial polyposis. 47(1):46

#### Cohen AM

Nontraumatic rhabdomyolysis and acute renal failure following prolonged lithotomy position. 47(5):264

#### Cohen Z

Symposium: Familial polyposis. 47(1):46

#### Copeland EM III

Nutrition for the cancer patient. 47(1):17

#### Cornell RB

Von Recklinghausen's disease and duodenal somatostatinoma: Case report and literature review. 47(3):144

#### Darnell RE

Von Recklinghausen's disease and duodenal somatostatinoma: Case report and literature review. 47(3):144

#### Diebel LR

Gastrointestinal endometriosis. 47(3):157

#### Dippolito A

Long-term survival following surgical treatment of rectal adenocarcinoma. 47(2):88

#### Dulchavsky SA

Gastrointestinal endometriosis. 47(3):157

#### Fazio VW

Symposium: Familial polyposis. 47(1):46

#### Fiorance V

Computers in surgery: Building the surgeon's virtual library. 47(1):40

#### Franceschi D

Symposium: In situ and microinvasive carcinoma of the breast. 47(2):109

#### Gokdogan C

Hepatic echinococcosis: Treatment without pericystectomy. 47(2):83

#### Goksoy E

Hepatic echinococcosis: Treatment without pericystectomy. 47(2):83

#### Goldberg S

Symposium: Changing management of patients with diverticular disease. 47(6):341

#### Greene FL

Gastroscopic screening in the management of gastric remnant carcinoma. 47(6):317

#### Hall TJ

Anatomic pitfalls of laparoscopic surgery of the right upper quadrant. 47(6):307

#### Happ RA

Long-term survival following surgical treatment of rectal adenocarcinoma. 47(2):88

#### Hawley P

Symposium: Familial polyposis. 47(1):46

#### Herrington JL Jr

William West Grant: The first appendectomy in America. 47(3):154

#### Hiatt JR

The parathyroid saga: Gland, hormone, and adenoma. 47(6):332

#### Hiatt N

The parathyroid saga: Gland, hormone, and adenoma. 47(6):332

#### Higgins E

Clinical concepts: Trocar-directed chest tube placement. 47(6):327

#### Hinder R

Symposium: Bleeding and transfusions in surgery. 47(3):165

#### Horowitz J

Sigmoid carcinoma presenting in an inguinal hernia sac. 47(2):78

#### Howard RJ

Symposium: Antibiotic update: The changing pathogenesis of surgical infections. 47(4):225

#### Iafrati M

Spontaneous splenic rupture complicating heparin therapy. 47(2):69

#### Jones DB

Laparoscopic splenectomy for splenic artery aneurysm. 47(5):257

#### Kaner G

Hepatic echinococcosis: Treatment without pericystectomy. 47(2):83

#### Kaups KL

Critical care management: Should this patient be sedated? 47(4):217

#### Kay C

The application of Diapulse in the treatment of decubitus ulcers: Case reports. 47(1):27

#### Kerlakian GM

Von Recklinghausen's disease and duodenal somatostatinoma: Case report and literature review. 47(3):144

#### Khaski A

The application of Diapulse in the treatment of decubitus ulcers: Case reports. 47(1):27

#### Kies MS

Development of malignant melanoma in a burn scar: Strategies for treatment. 47(2):94

#### Kodner IJ

Symposium: Changing management of patients with diverticular disease. 47(6):341

## SUBJECTS

### ABDOMEN

Anatomic pitfalls of laparoscopic surgery of the right upper quadrant. 47(6):307

Current surgical therapy for inflammatory bowel disease - Part 1. 47(3):129

Current surgical therapy for inflammatory bowel disease - Part 2. 47(4):195

Gastroscopic screening in the management of gastric remnant carcinoma. 47(6):317

Hepatic echinococcosis: Treatment without pericystectomy. 47(2):83

Laparoscopic splenectomy for splenic artery aneurysm. 47(5):257

Long-term survival following surgical treatment of rectal adenocarcinoma. 47(2):88

Nontraumatic rhabdomyolysis and acute renal failure following prolonged lithotomy position. 47(5):264

Splenic artery aneurysms: Survey of the national Veterans Administration hospital system. 47(4):185

Spontaneous splenic rupture complicating heparin therapy. 47(2):69

Symposium: Bleeding and transfusions in surgery. 47(3):165

Symposium: Familial polyposis. 47(1):46

Symposium: Management of liver abscesses. 47(5):287

William West Grant: The first appendectomy in America. 47(3):154

### BREAST

Symposium: In situ and microinvasive carcinoma of the breast. 47(2):324

Zuska's disease: Obstructed mammary duct related periareolar breast abscess. 47(6):324

### BURNS

Development of malignant melanoma in a burn scar: Strategies for treatment. 47(2):94

### CANCER

Development of malignant melanoma in a burn scar: Strategies for treatment. 47(2):94

Gastroscopic screening in the management of gastric remnant carcinoma. 47(6):317

Long-term survival following surgical treatment of rectal adenocarcinoma. 47(2):88

Sigmoid carcinoma presenting in an inguinal hernia sac. 47(2):78

Von Recklinghausen's disease and duodenal somatostatinoma: Case report and literature review. 47(3):144

### COLON-RECTUM

Current surgical therapy for inflammatory bowel disease - Part 1. 47(3):129

Current surgical therapy for inflammatory bowel disease - Part 2. 47(4):195

Island flap anoplasty. 47(1):11

Long-term survival following surgical treatment of rectal adenocarcinoma. 47(2):88

Sigmoid carcinoma presenting in an inguinal hernia sac. 47(2):78

Symposium: Changing management of patients with diverticular disease. 47(6):341

Symposium: Familial polyposis. 47(1):46

### COMPUTERS

Computers in surgery: Building the surgeon's virtual library. 47(1):40

Computers in surgery: Telesurgery, virtual reality, and the new world order of medicine. 47(4):204

### CRITICAL CARE

Critical care management: Should this patient be sedated? 47(4):217

Clinical concepts: Trocar-directed chest tube placement. 47(6):327

### ENDOSCOPY/LAPAROSCOPY

Anatomic pitfalls of laparoscopic surgery of the right upper quadrant. 47(6):307

Laparoscopic splenectomy for splenic artery aneurysm. 47(5):257

### GALLBLADDER

Gallbladder injury following blunt abdominal trauma: Case report and literature review. 47(5):273

### HEART

Emergency aortocoronary bypass following unsuccessful angioplasty. 47(3):136

### HISTORY

The parathyroid saga: Gland, hormone, and adenoma. 47(6):332

William West Grant: The first appendectomy in America. 47(3):154

### INFECTION

Symposium: Antibiotic update: The changing pathogenesis of surgical infections. 47(4):225

### INTESTINE

Current surgical therapy for inflammatory bowel disease - Part 1. 47(3):129

Current surgical therapy for inflammatory bowel disease - Part 2. 47(4):195

Gastrointestinal endometriosis. 47(3):157

Symposium: Changing management of patients with diverticular disease. 47(6):341

Symposium: Familial polyposis. 47(1):46

Von Recklinghausen's disease and duodenal somatostatinoma: Case report and literature review. 47(3):144

#### KIDNEY

Nontraumatic rhabdomyolysis and acute renal failure following prolonged lithotomy position. 47(5):264

#### LIVER

Hepatic echinococcosis: Treatment without pericystectomy. 47(2):83

Symposium: Management of liver abscesses. 47(5):287

#### MEDICOLEGAL

Legislative update: Medicolegal aspects of child abuse - Part III. 47(2):100

Legislative update: Medicolegal aspects of child abuse - Part IV. 47(5):278

#### NUTRITION

Nutrition for the cancer patient. 47(1):17

#### PARATHYROID

The parathyroid saga: Gland, hormone, and adenoma. 47(6):332

#### SPLEEN

Splenic artery aneurysms: Survey of the national Veterans Administration hospital system. 47(4):185

Spontaneous splenic rupture complicating heparin therapy. 47(2):69

#### STOMACH

Gastrointestinal endometriosis. 47(3):157

Gastroscopic screening in the management of gastric remnant carcinoma. 47(6):317

#### SYMPOSIA

Antibiotic update: The changing pathogenesis of surgical infections. 47(4):225

Bleeding and transfusions in surgery. 47(3):165

Changing management of patients with diverticular disease. 47(6):341

Familial polyposis. 47(1):46

In situ and microinvasive carcinoma of the breast. 47(2):109

Management of liver abscesses. 47(5):287

#### TELESURGERY

Computers in surgery: Telesurgery, virtual reality, and the new world order of medicine. 47(4):204

#### TRAUMA

Gallbladder injury following blunt abdominal trauma: Case report and literature review. 47(5):273

#### VASCULAR

Emergency aortocoronary bypass following unsuccessful angioplasty. 47(3):136

Laparoscopic splenectomy for splenic artery aneurysm. 47(5):257

Splenic artery aneurysms: Survey of the national Veterans Administration hospital system. 47(4):185

Symposium: Bleeding and transfusions in surgery. 47(3):165

#### WOUND CARE

Clinical concepts: Alternative approach to the problematic wound. 47(4):221

Clinical concepts: No drip lip strip. 47(2):102

ABSTRACT JOURNAL

## CONTEMPORARY SURGERY

### GUIDELINES FOR AUTHORS

CONTEMPORARY SURGERY publishes clinical articles on the practice of surgery and related topics to the benefit of its readers — practitioners in the fields of general, cardiovascular, thoracic, pediatric, trauma, and colon and rectal surgery, urology, oncology, infectious diseases, critical care, and nutrition. The goal of CONTEMPORARY SURGERY is to serve the surgeon in practice, and authors are asked to reflect this in their manuscripts. Only original material, not submitted elsewhere, is acceptable.

**Format.** The range of subject matter includes technique and rationale, review articles, case studies, history of surgery, and others. A symposium is offered as a special feature in each edition.

All manuscripts undergo peer review. Acceptance or rejection of a manuscript is based on suitability of the topic, technical accuracy, and clarity of presentation. Only original papers not previously submitted to or published by other journals are accepted for peer review.

**Illustrations.** All types of artwork may be submitted, including four-color illustrations. Artwork will be published at the discretion of the editor.

For best printing quality, color illustrations should be submitted as 35mm slides, black and white illustrations as glossy prints. On the reverse side of each illustration, or on the front of slide mount, indicate top, figure number, and contributor's name. Do not mount illustrations on paper or place paper clips on glossy prints. Submit legend for each illustration. Tables should have headings and be listed by Roman numerals. All illustrations will be returned to the author after publication of the article.

A letter of permission must accompany all photographs of identifiable patients and all illustrations previously published.

**Manuscript preparation.** Send two copies of the manuscript. A letter relinquishing copyright and certifying that the article is original material should accompany the manuscript. Please designate

one author for correspondence and indicate mailing address and telephone number. Title page should include degrees, academic title or staff position of each author, name of institution at which work was done, and, if appropriate, acknowledgments. An abstract, typed on a separate sheet, must accompany the paper, followed by introduction, materials and methods, results, discussion, conclusion, references, and legends.

References should be cited in the text by numerical sequence in order of appearance; 25 references are permitted. References listed in alphabetical order are not acceptable. Journal references should include authors (last name, initials), article title, publication, volume, page numbers, and year published. Only the first word of the title should be capitalized. Book references should list authors, chapter title, book title with each word capitalized, page numbers referred to, editors' last names and initials, city, name of publishing company, and year published.

Manuscripts are edited to conform with the style of CONTEMPORARY SURGERY. Galley proofs will be sent to the principal author for approval prior to publication. An honorarium is paid on publication. Authors are legally responsible for all statements made.

Seymour I. Schwartz, M.D.  
Editor in Chief, Contemporary Surgery  
Professor and Chair, Department of Surgery  
University of Rochester  
School of Medicine and Dentistry  
Rochester, New York
